"You have heard the novels of your own families; you can make those connections that exist between their various episodes, and you can let the coherent wholes that emerge from the stories play forceful, artistic roles in your lives." --William A. Wilson

Directions:

This Story Map will help guide you as you write and preserve your most precious memories. As you combine stories and photos you'll create a valuable treasure that can be shared for many years to come.

Step 1. Read through the following questions and answer them. You may need to involve others with interviews and gathering information, or just answer the questions on your own. You do not need to answer each question or even use each theme; these are meant merely as guidelines. As you answer the question(s), your answers become the story.

Step 2. Get your photos scanned and uploaded into your Studio account. Your personal publishing consultant can help you get all of your photos scanned quickly and easily with scanning services. Just ask!

Step 3. Start creating. You can design your own page from scratch or use one of the many Heritage Makers' pre-designed templates.

Your book will have 21 pages. Additional pages are available for a minimal printing cost.
